

## Next-generation CRC performance for OTC and nutraceutical packaging

### ✓ Drop-in Ready

Defender-Lok™ integrates directly into existing capping and filling lines, reducing downtime, and setup costs. Suitable for dry and liquid products.

### ✓ Tamper-Evident & Liner Agnostic

Defender-Lok™ closures support a range of tamper-evident configurations and liner options from custom to foam, tri-foil, induction, or pressure-sensitive.

### ✓ Certified Child-Resistant & Senior-Friendly

Defender-Lok™ is suitable for all age groups.

### ✓ Lightweighted for Sustainability

Defender-Lok's™ lightest-in-class design supports EPR regulation goals while maintaining operational performance.

### Weight Reduction Performance by Closure Diameter

*CSI CRC lightweight designs already exceed 2027 initiatives per SB-54, all plastics must be reduced by 20%*

Closure Diameter	Market Weight (g)	CSI Weight (g)	Reduction (g)	Reduction (%)
33mm	6.4	4.3	2.1	-33%
38mm	7.4	5.2	2.2	-30%
45mm	8.9	7.6	1.3	-15%
53mm	11.5	10.7	0.8	-7%

### When you think CRC—think CSI

Trusted by leading consumer brands for over 90 years, CSI operates in nine manufacturing sites across the U.S., Mexico, Costa Rica, China, and Japan.
